Online Testing

The Trail-Making Test Part A, often called the Trails A Test, is one of the most popular cognitive tests. It is also one of two cognitive tests recommended by the American Medical Association for older driver assessments. The Online Trail Making Test Part A™ is the only online and computerized Trail Making Test Part A of the US Army Individual Test Battery. It is designed to save agencies significant time, labor, expense, and wait time because it rapidly screens and monitors individuals for cognitive decline, brain injury, cognitive impairment, or memory loss. Instant scores, reports, statistics, and feedback are provided through this unique web-based application that enables secure and simultaneous review and comparison of data across the world, between agencies and clinicians, in real time.

Use your existing computer and Internet now to offer rapid and powerful cognitive evaluations, fitness to drive determinations, and medical decision assessments with the Online Trail Making Test Part A™.

*Streamline operations,
automate cognitive testing processes, and
improve the quality of healthcare now with the
Online Trail Making Test Part A.*

Online Test Solutions™
are your best solutions.
