Online Testing

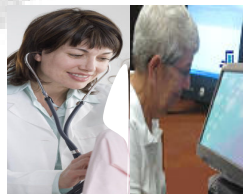

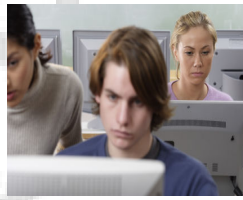

This is the only online and computerized version of the Trail Making Test of the US Army Individual Test Battery. This Trail-Making Test contains two popular tests, Part A and Part B. Online Trail Making Tests™ (OLTMT) are designed to save agencies significant time, labor, and expense, and wait time because they rapidly screen and monitor individuals for cognitive decline, brain injury, cognitive impairment, or memory loss. Instant scores, reports, statistics, and feedback are provided through this unique web-based application that enables secure and simultaneous review and comparison of data across the world, between agencies and clinicians, in real time.

Use your existing computer and Internet now to offer rapid and powerful cognitive evaluations, fitness to drive determinations, and medical decision assessments with the Online Trail Making Tests™.

Streamline operations, automate cognitive testing processes, and improve the quality of healthcare now with OLTMT.

Includes

- Trail Making Test, Part A
- Trail Making Test, Part B
